Robert W. Lavergne Jr.

but you can call me "R.J."

600 William St (Apt 226) | Oakland, CA | 281-451-2538 | rjlavergne@gmail.com

An ambitious web developer with an eye for design, UX, social media, & branding.

SUMMARY

- 5-6 years experience in responsive front-end web development and prototyping with necessary languages and frameworks for multiple devices.
- Contributed to live sites through original code, debugging, and quality control.
- Proven ability to complete multiple assignments efficiently and effectively, while referring to online resources and learning new skills as I go.

Languages:	**Graphics:**	**Frameworks:**
HTML5, CSS3, JS/Jquery, JSON	Photoshop, Illustrator	Bootstrap, Foundation, Apache Velocity
Content/Project Management:	**Software:**	**There's more:**
Wordpress, NPM, Sitecore, Yarn, JIRA, Webpack, GIT	SourceTree, Sublime, Visual Studio	AJAX, Web APIs, Adobe Premier, GULP SASS/LESS, React/Redux

PROFESSIONAL EXPERIENCE

Pandora Media (Oakland, CA)   *July 2015 - Current*

Front-End Engineer

- Developed custom stations with on-demand tracks, video, and more using and improving upon velocity templates.
- Helped with maintenance of bugs, issues, and updates with Pandora.com redesign (built with react/redux), as well as other parts of the site.
- Built and contributed to static pages used in promoting Pandora's music genome and premium product.
- Took part in hack-a-thon project using a custom bot to listen and return Pandora stations in conversations in Slack.
- Worked to get site accessibility up to par.

Moxie (Atlanta GA)   *June 2013 - June 2015*

UI Developer

- Developed sites responsively using Media Queries and Frameworks with Senior Developers around .NET/ASP and Sitecore CMS.
- Worked closely with UX and Creative on projects and with QA to tighten up loose ends.
- Helped recruit for the company by mentoring and speaking to potential intern candidates/students interested in working at Moxie.
- Learned to utilize dozens of JS libraries and plugins to enhance projects for clients and the company.

Deep Blue Web Design (Atlanta, GA)

Front-End Web Developer   *Sept. 2012 - June 2013*

- Development of responsive website prototypes with parallaxing, CSS Animations, and jQuery, as well debugging and quality control.

National Builder Supply (Austell, GA)

Contract Developer   *Mar. 2012 - Nov. 2012*

- HTML/CSS Prototyping for a responsive checkout experience.
